CLINICAL INFORMATION

Diagnosis (ICD-10): ☐ 294.0 Kidney Transplant ☐ 294.1 Heart Transplant ☐ 294.2 Lung Transplant ☐ Other: __________ Date of Diagnosis: __________
Has patient received immune globulin previously? ☐No ☐ Yes: Date of last infusion: __________ Date of next infusion: __________
Comorbidities: ______________________
Allergies: ☐ NKDA ☐ Other: ______________________

Please included the following information: ☐ Demographics ☐ H&P ☐ Physician Orders ☐ Insurance Information ☐ Labs

PRESCRIPTION INFORMATION (or attach a copy of prescription)

Infusion Therapy:
Preferred brand ______________ **OR** ☐ Pharmacist will determine appropriate product based on clinical assessment, insurance requirements, and availability
☐ No Substitute ☐ Refills: ____________ times (as allowed by state or payer requirements)

Dose: *(please select option(s) and provide complete information, pharmacy to round the nearest 5 gram vial)*
☐ Administration Rate = Follow Manufacturer's Guidelines
☐ Loading Dose: _____ gm/kg over ____ days, then
☐ Maintenance dose: ____ gm/kg over ____ days, every ____ weeks x ____ cycles
☐ Other Regimen: ______________________

Infusion Rate: *(please select one and provide complete information)*
☐ Pharmacist to determine
☐ Start at _____ mL/hr, then increase by _____ mL/hr every ____ minutes to maximum rate _____ mL/hr

Vascular Access Device:
☐ Peripheral Catheter ☐ PICC ☐ Port
☐ Other (describe # of lumens): ______________

Flush Orders: (If IV ordered, the following flush protocols will be followed)
☐ **Sodium Chloride 0.9%**
Peripheral Line: 3 mL before each dose and 3 mL after each dose and PRN
Central Line: 5-10 mL before each dose and 5-10 mL after each dose and PRN
☐ **Heparin 10 u/mL** Peripheral Line: 3 mL after last sodium flush and PRN
☐ **Heparin 100 u/mL** Central Line: 5 mL after last sodium flush and PRN
Provide needles, syringes, VAD supplies & other ancillary supplies needed for infusion

Hydration Orders:
Infuse ___ mg _________ solution ☐ Prior to ☐ Following

Labs:
Results will be faxed to physician's office. If no frequency noted, ordered labs to be done prior to initial infusion only. Labs will not be drawn on weekend/holidays. Not appropriate for STAT labs
☐ Quantitative Ig A prior to first dispense. Pharmacist to obtain authorization from MD.
☐ Other: ____________ Frequency of Labs: ____________

Pre-Medication:
Diphenhydramine
25 mg capsule: 1-2 capsules PO 15-30 minutes before each infusion ☐ Decline
Acetaminophen
650 mg tablet: 1-2 tablets PO 15-30 minutes before each infusion ☐ Decline
☐ Other: ______________ Strength: ____________
Directions: ______________________

Anaphylaxis Kit Order (Infusion Reaction Management x1/year)
